

AstroMundus

With the financial support of the European Community through the Erasmus Mundus Programme 2009 -2013

International Master Degree in Astronomy and Astrophysics

JENAM 2010
6-10 September 2010

Application Deadline: November 30th 2010
www.astromundus.eu

I Semester: basic learning - AUSTRIA - University of Innsbruck

II Semester: specialization - ITALY - Universities of Padua or Rome "Tor Vergata"

III Semester: specialization - ITALY or GERMANY or SERBIA - Universities of Göttingen or Belgrade or Rome "Tor Vergata"

IV Semester: Master Thesis - ANY of the 5 Partner Institutions at choice

Accreditation: Joint Degree - Master of Science

Partnership:
Innsbruck, Austria
Padua, Italy
Rome, Italy
Belgrade, Serbia
Göttingen, Germany

AstroMundus is a 2-years Erasmus Mundus Masters Course in Astronomy and Astrophysics open to top-ranked students from all over the world, already holding a Bachelor Degree. The international partnership of five European Universities offers an excellent educational level and insures a wide variety of expertise in all branches of Astrophysics: Galactic and Extragalactic Astrophysics, Theoretical and Computational Astrophysics, Cosmology, Astroparticle Physics, Active Galactic Nuclei, Observational Astrophysics from ground and space, and many more.

Successful applicants will carry out their Master Programme in at least two and up to four countries within AstroMundus partners, and will be awarded a Joint Master Degree by all the partner institutions visited during the Course.

The European Community, in the framework of the Erasmus Mundus Programme 2009-2013, funds a number of **scholarships** to cover registration fees, living allowance and travel costs. Students are selected through a competitive process based on excellence.
